

**Programme for the Special General Meeting of The Society  
Combined With a Technical Meeting/Discussion  
“Climate Change – Can Chemical Engineers Really Make a Difference”**

**When:** Tuesday, 24<sup>th</sup> November 2009

**Where:** At the Pickering Meeting Room, Aurecon New Zealand Limited,  
Old Bank Chambers, Level 1, 102 Customhouse Quay, Wellington  
(reception phone 04 472 9589 or Greig Wilson Mob: 021 656 120)

**Programme:**

**3.00pm** – Technical Meeting/Discussion.

**4.30pm** – Refreshments generously provided by our sponsors  
Aurecon NZ and Platts Drievap Engineering.

**5.00pm** – SGM for SCENZ members.

**Technical Meeting Information:**

You are invited to join us for a discussion about how chemical engineers are making a difference in realising solutions to the challenges posed by climate change.

Chemical engineers in New Zealand are carrying on the proud tradition of providing solutions to meet the needs of society.

Five speakers will set the scene in talking about the challenges ahead of us in this transition to a low carbon world:

*Stephen Drew – Energy Response*  
*Mark Aspin – Pastoral Greenhouse Gas Research Consortium*  
*Jack Ballagh and Tony Oosten – Fonterra*  
*Fraser Clark – Wind Energy Association*

There will be an open discussion before refreshments prior to the SGM:

**RSVP:** To Tony Harcourt by 20<sup>th</sup> November 2009 - [scenz@canterbury.ac.nz](mailto:scenz@canterbury.ac.nz)

Max Kennedy  
Chairman, SCENZ
